Rollomatic Appoints Southeast Regional Sales Manager

Rollomatic Inc., a subsidiary of Rollomatic Holding Switzerland, announces the appointment of Jason Hodgin as regional sales manager for several key manufacturing areas in the Southeastern and Central United States.

Rollomatic is a world-leading builder of CNC tool/cutter and peel grinding machines as well as laser cutting machines based in Le Landeron, Switzerland. Their North American headquarter is in Mundelein, IL with a state-of-the-art machine demonstration and customer support facility. Their sister company, Strausak Inc., is located in the same building.

“We selected Jason Hodgin for this role based on his extensive sales and manufacturing experience in the CNC cutting tool and machinery industry. His support-oriented sales approach and his strategic mindset will benefit the customer base, and such qualities are key to expanding the brand name and drive the ever-evolving new technologies of the company”, said Brian Twohey, National Sales Manager of Rollomatic Inc. “Jason’s impressive track record working for several renowned cutting tool and machine builders makes him a welcome addition to the sales team and we fully expect that his talents will support the profitable growth of our business.”

Prior to joining Rollomatic Inc., Jason Hodgin spent 8 years with a Swiss manufacturer of tool coating equipment and 7 years with a global cutting tool manufacturer where he repeatedly demonstrated a high level of customer engagement and a very friendly and amiable personality which is an invaluable asset in sales.

Rollomatic Inc., located in Mundelein, Illinois, is a subsidiary of Rollomatic SA, a privately-owned Swiss company established in 1989 in Le Landeron, Switzerland. The US Headquarter was launched in 1994 to provide local customer service and support throughout the U.S., Mexico and Canada.

This location features a 29,000 sq. ft. building with a showroom and training area as well as warehouse and engineering offices. This showroom provides an ideal atmosphere for machine demonstrations, software training and test grinding, while offering an opportunity to explore the latest Rollomatic offerings.

Rollomatic is looking to the future with its partners such as the EPFL (Swiss Technical University in research, teaching and innovation) so it can be right at the center of the innovations and in-depth discussions shaping the Fourth Industrial Revolution. True to its Swiss origins, the company operates at the highest level of precision and offers 100% Swiss-built products and services. Rollomatic is in constant pursuit of excellence in quality and accuracy.
